**Good Feed Racks
Save Your Feed**

When you throw the hay and fodder for your cattle on the ground in the pasture or feeding yards, half of it is trampled under foot.

Poorly built mangers and racks also allow your stock to scatter the feed and waste it. You can avoid this waste during the winter by building new feeding racks now—or by fixing up the old ones.

Let Us Help You

We can show you how to build the most satisfactory kind. They have been designed by farm experts and are in use on many of the most up-to-date farms now. We can also furnish you free plans and cost estimates on every kind of farm building.

Come in and talk it over with us.

**SON OF FORMER AGENT HERE
DIES FOLLOWING OPERATION**

Roy Shaw, sixteen year old son of Mr. and Mrs. E. P. Shaw, formerly of Ontario but now residents of Caldwell, Idaho, died at his home in that city Sunday afternoon from appendicitis following two operations and twenty-six days illness. The remains were brought to Ontario for burial. The funeral took place Tuesday afternoon at 2:30 from the Methodist church, the services being conducted by the pastor, Rev. Wm. J. Luscombe.

NOTICE OF QUARANTINE NO. 7

The fact has been determined by the President of the Oregon State Board of Horticulture that an injurious insect pest, the alfalfa weevil (*Phytonomus Posticus*, new to and not heretofore widely prevalent or distributed within or throughout the State of Oregon, exists in that portion of Malheur county, Oregon, hereinafter described.

Now, therefore, I, Chas. A. Park, President of the Oregon State Board of Horticulture, under the authority conferred by Section 2, of Chapter 246, of the General Laws of 1913, and Section 4, of Chapter 342, of the General Laws of 1915, do hereby quarantine that portion of Malheur County, Oregon described as follows: Beginning at a point in Malheur County, Oregon where the township line running between Range 41 and 42 East intersects the North boundary line of Malheur County, Oregon; thence South on said township line to the Southwest corner of Township 17 South Range 42 East; thence East on the township line running between township 17 and 18 South to the Southwest corner of Township 17 South Range 44 East; thence South to the Southwest corner of Township 20 South Range 44 East; thence East to the State boundary line between the States of Oregon and Idaho; thence Northerly following said boundary line along the meanders of the Snake River to the place where the North boundary line of said Malheur County intersects said Snake River, thence Westerly along the North boundary line of said Malheur County to the place of beginning. And from and after the publication of this notice in a newspaper published within the County of Malheur, it shall be unlawful for any person, firm or corporation to carry or transport any kinds of hay and straw, including hay, alfalfa hay products, straw, grass, forage plants, weeds or tule used in cattle care or used for packing nursery stock of any kind or in any other way from said portion of Malheur County into or throughout any part of the State of Oregon, outside of said described portion of Malheur County except under the conditions hereinafter set forth, as follows:

1. Alfalfa meal or other finely ground products made from alfalfa hay, provided that the grinding of such products shall be done between the date of October 1 to April 1, may be shipped into or through any part of the State of Oregon under the following provisions:

a. That all such products shall be sacked and shipped in new, clean sacks.

b. That the product shall be stored in warehouses removed from alfalfa fields, alfalfa hay, or other suspected materials immediately after being ground, until shipped or otherwise disposed of.

c. Provided further that shipments of alfalfa meal or other such ground products designated for points in the State of Oregon shall be shipped to only such points as designated by the Oregon State Board of Horticulture or its duly authorized agent.

d. All warehouses and places where said product is stored to be at all times free of alfalfa hay, other hays, straw and all other means of contamination.

e. Each lot shipment must be accompanied by an official certificate signed in writing by an Horticultural Commissioner of the State of Oregon or his duly authorized agent attesting that it has been inspected and passed in compliance with these regulations, and stating where it was ground, stored, inspected, and point of shipment.

Done at the office of the Oregon State Board of Horticulture, Portland, Oregon, October 5, 1920.

CHAS. A. PARK,

President of the Oregon State Board of Horticulture, Executive Office, Salem, Oregon, October 5, 1920.

I, Ben W. Olcott, Governor of the State of Oregon, do hereby approve the foregoing promulgation and designate the Argus, a newspaper published in Ontario in said County of Malheur, as the newspaper in which said notice shall be published.

BEN W. OLCOTT,

Governor of the State of Oregon. First publication, Oct. 14, 1920. Last publication, Oct. 28, 1920.

**GOPHER CAMPAIGN NOW
MAKING GOOD PROGRESS**

Farm Bureau Work Supervised by Horn of Biological Survey Effective — Crews Organized To Scatter "Bait" Systematically

After several weeks of preparatory work testing out a large number of baits to determine which would be most effective when used on a large scale, the farm bureau campaign against pocket gophers in the Malheur valley is now under way. The most effective bait was found to be made of half-inez cubes of sweet potato, sprinkled with a strychnine alkaloid-saccharine mixture.

A crew has been organized to distribute the bait on the farms in the territory lying between Malheur Butte and Vale which is the territory which the Vale Farm Bureau went on record asking for a cleanup on gophers. The men are under the

direct supervision of Mr. Horn of the U. S. Biological Survey, who works in accordance with the provisions of the Rodent Control Law brought to bear in this county by farm bureau petition to the county court last spring.

The baits are placed in the main runways by means of probes. Efficient work in poisoning gophers depends upon the use of good baits and upon a knowledge of the burrowing habits of the animals. Preliminary figures indicate that the land will be rid of upwards of ninety per cent of the gopher population by two treatments at a total cost varying from 5 to 50 cents per acre according to the numbers of gophers present.

The woman's Club had its first program of the year at the meeting this afternoon at the home of Mrs. E. C. Van Petten. The study of Japanese art was taken up.

Mrs. S. B. Staley of Montpelier arrived Monday to make an extended visit with her son and daughter, Mr. and Mrs. J. R. Rasmussen.

Mrs. Ray Jones will entertain tomorrow afternoon with a bridge party in honor of her sister, Mrs. Irwin Brogan. Mrs. Brogan is visiting her parents, Mr. and Mrs. W. M. Taylor. Miss Lavine Smith entertained Saturday afternoon in honor of her niece, Miss Katherine Kahout's twelfth birthday. The following guests enjoyed the party and elaborate refreshments which were served: Theresa Young, Evelyn Gallagher, Jean Alken, Florence Reedy, Eleanor Wood, Helen Wisdom, Anna Messee, Ruth Homan, Margaret Blackaby and Master Billy Blackaby.

H. A. Fosselman formerly of this city but now a resident of Emmett was in Ontario for a short time on Monday.

O. H. Graham took a business trip to Boise Monday.
